Re: FAQ Document for NSPS OOOOa

Dear Bruce:

As mentioned in the August 25, 2016 meeting between the GPA Midstream Association (“GPA Midstream”) and the Environmental Protection Agency (EPA) regarding GPA Midstream’s Petitions for Reconsideration and Review on NSPS OOOOa, EPA is currently drafting and reviewing a FAQ document related to NSPS OOOOa.

GPA Midstream respectfully requests an opportunity to review the draft FAQ prior to its official release. EPA noted in our meeting that this document is not an official Applicability Determination; however, it is likely that state agencies will use this document as guidance for rule interpretation and enforcement. As such, GPA Midstream would like the opportunity to review the FAQ and discuss any potential issues or concerns with EPA prior to release. We believe this will reduce questions and follow-up changes after the release. Additionally, GPA Midstream can provide feedback on how to make the FAQs clearer to industry representatives (i.e., industry specific terminology).

Thank you for your consideration.

Respectfully Submitted,

Matthew Hite
Vice President of Government Affairs
GPA Midstream Association
