

# GPA Midstream Technical Conference

Technical Conference brings together the midstream industry technical community with education sessions, committee work, and valuable networking opportunities. At this event, industry-leading technical committees and workgroups collaborate to develop and maintain industry standards and reference bulletins.

## TECHNICAL CONFERENCE OVERVIEW

The GPA Midstream Technical Conference is a three-day event for midstream's community of technical professionals. The event features technical committee and workgroup meetings, as well as continuing education opportunities via research papers offering practical and innovative solutions to industry challenges from the common to the complex. Technical Conference is home to high-level professional networking and the chance for in-depth conversations with technology providers and event sponsors.
